

10×24 Concrete Corner System (External Corner)

SKU: CC-10E

External Corner — Front View

External Corner — Side View

TECHNICAL SPECIFICATIONS

Material	ABS + PP
Color	Black / White
Corner Type	External
Panel Size	10 × 24 in
Dimensions	9.8 × 23.6 in
System	Modular / Interlocking
Reuse Cycles	200+

PRODUCT OVERVIEW

The 10×24 Concrete Corner System (External Corner) is a purpose-built formwork component for forming precise 90° external corners in concrete wall construction. Manufactured from high-strength ABS and PP, it integrates seamlessly with all standard formwork panels to create sharp, clean external corners with no additional finishing required after stripping.

OPTIONS & CUSTOMIZATION

- **Color:** Black or White
- **Panel Size:** Available in multiple sizes
- **System:** Compatible with standard tie rods

KEY FEATURES

EXTERNAL CORNER

Purpose-built for precise 90° external concrete corners with clean edges.

ABS + PP CONSTRUCTION

High-strength lightweight materials for durability and precision concrete forming.

SEAMLESS INTEGRATION

Compatible with all DR Polysystem wall formwork panels for complete assemblies.

200+ REUSE CYCLES

Lightweight and reusable for significant long-term cost savings on site.
