TECHNICAL SPECIFICATIONS

Material	ABS + PP
Color	Black / White
Corner Type	Internal
Panel Size	12 x 24 in
Dimensions	11.8 x 23.6 in
System	Modular / Interlocking
Reuse Cycles	200+

PRODUCT OVERVIEW

The 12x24 Concrete Corner Form (Internal Corner) is designed for forming accurate 90° internal corners in cast-in-place concrete wall systems. Manufactured from ABS and PP, this component integrates with all standard DR Polysystem formwork panels, enabling complete room and structural enclosure forming with consistent wall thickness and a smooth finish throughout.

OPTIONS & CUSTOMIZATION

- **Color:** Black or White
- **Panel Size:** Available in multiple sizes
- **System:** Compatible with standard tie rods

KEY FEATURES

INTERNAL CORNER

Purpose-built for precise 90° internal concrete corners with clean edges.

ABS + PP CONSTRUCTION

High-strength lightweight materials for durability and precision concrete forming.

SEAMLESS INTEGRATION

Compatible with all DR Polysystem wall formwork panels for complete assemblies.

200+ REUSE CYCLES

Lightweight and reusable for significant long-term cost savings on site.
